# KNOWLEDGE BASED DECISION MAKING

KBDM, Knowledge Based Decision Making is a process to a n Informed Group Conscience.

Background information is compiled based on facts, not opinions, and both pros and cons are listed.

This information then goes to the fellowship prior to the discussion and allows for everyone to have the opportunity to be heard, positive, negative and minority opinions.

KBDM information is fact based and should show no bias to a particular outcome.

The discussion may or may not lead to the group deciding to make a motion.

# SETTING THE TONE

- Talk to each other (equality)
- Reason things out (patience)
- Participate in discussions (honesty and generosity)
- Be open minded (understanding and compassion)
- Show respect (acceptance and trust)
